Herb Functions:

Garcinia Cambogia - Helps to reduce the appetite when taken before meals while playing a role in fat metabolism and the reduction of fatty acid formation. ¹

ForsLean® Coleus Forskohlii - Stimulates lipolysis (the breakdown of stored fat) as well as inhibits the synthesis of fat in adipocytes (fat cells). ²

Green Tea - Aids in thermogenesis and promotes fat oxidation. ³ Contains catechins, noted for its powerful antioxidant properties. ⁴

Gymnema Sylvestre - Plays a role in improving blood sugar control. ²

Ginger - Noted for its ability to increase thermogenesis. ²

Black Pepper - Increases thermogenesis. ²

Banaba - Controls appetite and food cravings. Promotes healthy insulin levels and balances blood sugar. ⁴
